## VRcontext joins SAIC public safety integration center

Brussels, Belgium 29 March 2005; VRcontext today announced that it has completed the installation of its software platform Walkinside™, a real time visualization application of urban and industrial 3D environments, at Science Applications International Corporation's (SAIC) Public Safety Integration Center (PSIC).

Located in the Washington, D.C. suburb of McLean, Va., SAIC's PSIC is a laboratory, test bed, and prototype demonstration facility that is used to illustrate the successful integration of capabilities and expertise from SAIC with vendors, service providers and the federal government to suit specific customer needs. Presented with scenarios tailored to PSIC visitors' requirements in the areas of homeland security, homeland defense and national security, PSIC staff demonstrate various integrated solutions to suit visitors' needs in areas that include policy, enterprise architecture, systems engineering, information technology, training and prevention.

With VRcontext's Walkinside, SAIC's Public Safety Integration Center can achieve real time interaction and information sharing across federal, state, and local systems, emergency operations centers, first responders, the intelligence community, law enforcement, military branches, health services, transportation, and private industry.

"We welcome VRcontext's technology to the growing list of vendors who are demonstrating their capabilities in SAIC's PSIC," said James W. Morentz, SAIC vice president for Homeland Security Technology.

"Convivial real time 3D visualization and integration of complex data coming from heterogeneous sources is our mission to the homeland security and industrial world. We intend to develop and deliver the most advanced visualization technologies, while supporting today's and tomorrow's advanced computing architectures to achieve this mission" said Alain Hubrecht, President and CTO of VRcontext.

### About SAIC ([www.saic.com](http://www.saic.com))

Science Applications International Corporation (SAIC) is the largest employee-owned research and engineering company in the United States, providing information technology, systems integration and eSolutions to commercial and government customers. SAIC engineers and scientists work to solve complex technical problems in national and homeland security, energy, the environment, space, telecommunications, health care and logistics. With annual revenues of nearly \$7 billion, SAIC and its subsidiaries have more than 42,000 employees at offices in more than 150 cities worldwide.

### Walkinside™ ([www.walkinside.com](http://www.walkinside.com))

Walkinside™ is a leading software application for real time visualization. The software is able to instantly render very large, complex 3D models from a variety sources. The application is a conceptualisation/engineering/manufacturing aid, where the intuitive interface allows people to coordinate, collaborate and communicate to make the right choices at the right time.

### About VRcontext ([www.vrcontext.com](http://www.vrcontext.com))

VRcontext is committed to developing real time visualisation software applications for industry. The software is targeted towards the Energy, Manufacturing and Government sectors. As an innovative IT company VRcontext has implemented a company culture which encourages research & development to better provide cost-effective visualisation solutions. At the same time VRcontext has a dedicated customer focus and works together with hard- & software partners to deliver the best solutions.

Statements in this announcement other than historical data and information constitute forward-looking statements that involve risks and uncertainties. A number of factors could cause our actual results, performance, achievements or industry results to be very different from the results, performance or achievements expressed or implied by such forward-looking statements. Some of these factors include, but are not limited to, the risk factors set forth in the Company's Annual Report on Form 10-K for the period ended January 31, 2002, and such other filings that the Company makes with the SEC from time to time. Due to such uncertainties and risks, readers are cautioned not to place undue reliance on such forward-looking statements, which speak only as of the date hereof.
