Walkinside Brochures

[Intelligent 3D Portal Part 1](#)

More fun at work with enhanced productivity? It is possible!

Find out how Walkinside helps you leverage all your data, documents and applications, through a user-friendly 3D portal...

[Intelligent 3D Portal Part 2](#)

How about remotely sharing knowledge and expertise, while visualizing your assets in 3D? It works!

Discover how Walkinside WebServer does it.

[Walkinside Seabed Builder](#)

Subsea Asset model building. As complex assets become more geographically dispersed, whether onshore or on the seabed, specific tools and functionalities are required to assemble automatically a correct 3D model of the complete infrastructure, using ESRI ArcGIS data

[Walkinside Immersive Training Simulator \(ITS\)](#)

Describes the role of VRcontext products in Immersive Training Simulator environment.

See also Walkinside ITS movie:

Walkinside field operator immersive familiarization and safety procedures rehearsal in the context of an oil-producing offshore platform in 3D.
